# Accept Payments. Manage Inventory. Process Orders. Go Mobile.

You have the power to choose! Customize your payment options to fit your specific business needs. Check out some of our most popular features.

#### **Payment Options**

From simple payments to complete order tracking and invoicing, we offer a variety of ways to get paid. **Quick Pay** allows you to start accepting payments right away via cash, card and check.

Need a bit more? **MX<sup>™</sup> Merchant** accommodates complete orders including customers, inventory, shipping and returns with split tender payments. Is there already an open balance? MX<sup>™</sup> Merchant provides a 'Pay Now' option within email that allows customers to make a convenient, secure card payment.

#### Transact on the Go

If you're not a brick and mortar, if you don't want to be stuck behind a register, or if you need to be out and about while transacting, MX<sup>™</sup> Merchant offers a mobile product to suit your on-the-go needs. MX<sup>™</sup> Merchant Express is an easy-to-use iPhone application for accepting card payments with optional gratuity. MX<sup>™</sup> Merchant Retail accommodates complete orders and inventory all from the convenience of an iPad. And if you need to manage multiple orders at once, our Pro app for iPhone allows multiple open "carts". Keep an "open tab" for your customers while moving around and serving multiple clients.

#### **Customizable Payment Widget**

Already have a website or an email where you're collecting funds? Charities, fundraisers, school events, or anyone wanting to collect funds through their own branded platform can use MX<sup>™</sup> Merchant hosted payments. Our customizable Payment Widget links directly to your merchant account and allows card payment without you having to handle any sensitive card data. Create one or more customized widgets and track payments.

#### **Personalized Inventory Management**

Since every business need is different, our system allows you to customize inventory or stock with our specialized management tools. MX<sup>™</sup> Merchant will not only handle your point-of-sale needs, it handles all inventory needs from onboarding to tracking, from simple to complex inventory. Track suppliers, create purchase orders, transfer inventory between locations, and manage numbers on what is and what is not selling, all from our customized system.

#### Recurring

Collect payments with little to no effort with MX<sup>™</sup> Merchant Recurring Billing. Create custom auto pay, text to pay, or click to pay subscriptions for your most valued, repeat customers. MX<sup>™</sup> Merchant provides payment options and recurring billing cycles to fit every need. Easy and convenient for you and your customers.
